

## PUBLIC DISCLOSURE OF #QUIXOTE INTERIM REPORT

A thoroughly researched and meticulously Politically Independent and initially Secret Pro Bono National Investigation into perceived Voting Irregularities including alleged Fraud , has been carried out in the North East by Applied I F Limited

The Forensic Investigation has been code named #QUIXOTE

The Conclusion of an Interim Report of only a partially completed Investigation is that , based upon Official Voting Records only , Electoral Irregularities and indeed alleged Electoral Fraud has been factually and sufficiently identified using the Investigator's *Green Target Count Model* such as to call into question the overall legality of the 2015 7 May General Election

Indeed the Investigators believe and allege that so widespread and serious is the alleged Electoral Fraud and Voting Irregularities exposed by the #QUIXOTE Report Parts I & II . (Methodology ) , together with the Associated Twin #QUIX XXX TESTS , [ *Being : #QUIX XXX TESTS ( For Omissions of Official Voting Data ) ; and #QUIX XXX EXCEL TESTS ( For Perceived Irregularities including Alleged Fraud via , for just one example , Large Numbers of Added False / Ghost Votes which have totally corrupted the result of the #GE2015 ] , that Her Majesty in her position as Sovereign and Head of the Privy Council , should consider the #QUIXOTE Report together with it's Conclusions*

#QUIXOTE Interim Report respectfully invites Her Gracious Majesty to consider as to whether they provide sufficient Constitutional Grounds such that Her Majesty do dissolve Mr Cameron's Government , and cause another general Election to be held

#QUIXOTE respectfully urges and invites Her Gracious Majesty to ensure that future Elections be properly regulated using the Proposed Alternative Count Model ( code named Green Target ) which has been created and used by #QUIXOTE in this Investigation as a yardstick to enable perceived Electoral Fraud to be examined

It is further concluded and respectfully recommended to her Most Gracious Majesty that this should be done prior to the EU Referendum , which when this is held , the EU Referendum itself should be properly Audited and Regulated not by the Electoral Commission's own existing Voting COUNT MODEL ( code named by #QUIXOTE as the "*Blue Sewer*" ) , which is deemed to have been *not fit for purpose* , but by the "*Green Target*" COUNT MODEL which has been created and is offered pro bono in the Public Interest and in the interests of Democracy
